ICON GUIDE

TOILET & LAVATORY

1.0 GPF

Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.

DYNAMAX TORNADO FLUSH®

Uses 100% of water to clean and rinse the bowl using a smaller amount of water more efficiently with a 2.5" trapway and quieter flush. Available in 1.0/.9 GPF or 1.28/.8 GPF.

TORNADO FLUSH®

A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

3D TORNADO FLUSH®

Three powerful nozzles create a powerful centrifugal rinsing action and combines it with the conservation of 0.9 or 1.28 GPF.

DUAL-MAX®

A dual flushing system that optimizes conservation by selecting the preferred flush volume.

E-MAX®

High performance, high-efficiency flushing technology using only 1.28 GPF with a 3" wide flush valve, large trapway, and extra-large siphon jet.

G-MAX®

A reliable flushing technology with 3" wide flush valve, large trapway, and extra-large siphon jet.

CEFIONTECT®

Ultra-smooth ceramic glaze leaves nowhere for waste to cling.

UNIVERSAL HEIGHT

Toilet height that allows for a more comfortable height position across a wide range of users.

SKIRTED DESIGN

The trapway is concealed by smooth porcelain, making the toilet easier to clean.

LINEARCERAM®

Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

LUMINIST®

An epoxy resin material that combines the translucence of glass with exceptional impact and heat resistance.

WATER SAVING

Water efficient toilets designed with 1.28 gallons per flush or less.

WASHLET®

TOTO WASHLET

An electronic bidet seat featuring adjustable warm water cleansing, heated seat, dryer, deodorizer and much more.

AIR-IN WONDER WAVE®

Air rich water droplets to produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption.

WASHLET®+

WASHLET and toilet set with a concealed connection that is specially designed for a seamless installation.

ACTILIGHT®

Special glaze combined with ultraviolet light work together to break down waste in the toilet bowl.

EWATER+®

Mists the bowl with electrolyzed water, a proven disinfectant, keeping the wand and toilet bowl clean to reduce the need for harsh chemicals.

PREMIST®

Using the incoming water supply, PREMIST sprays the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

AUTO FLUSH

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

DEODORIZER

Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

HEATED SEAT

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

WARM AIR DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

CODES & STANDARDS

ADA

Product complies with Americans with Disabilities Act guidelines.

WATERSENSE

Product that meets EPA standards for water efficiency and performance criteria.

CEC

Product meets California Energy Commission requirements.

CALGreen

Product meets CalGreen Water Regulations for new construction and permitted remodel.

DESIGN AWARDS

reddot award 2018 winner

The Red Dot is the award for high design quality. The international jury only awards this sought-after seal of quality to products that feature an outstanding design.

IF AWARD

The iF DESIGN AWARD has long become a symbol for excellent form, for aesthetic quality, and for user-focused, ergonomic and efficient design in all disciplines, by companies around the world.

GOOD DESIGN

The Good Design Awards is the world's oldest and most important industrial design program organized annually by the Chicago Athenaeum Museum. Awarded to our EWATER+ products.

TOTO CLEANOVATION

Clean gives peace of mind

Clean makes life beautiful

Clean feels refreshing

Clean is caring for people and the planet

Clean brings wellness to everyday life

TOTO innovation brings a new world of clean to life, enriching every moment of every day.

EWATER+®
For WAND

PREVENTS the accumulation of
waste on WAND

CLEAN SYNERGY

Your toilet reappears clean every time

PREMIST®

PREVENTS waste
from CLINGING

EWATER+
For BOWL

PREVENTS the accumulation of
waste on BOWL

CEFIONTECT®

FORCES waste to
SLIDE DOWN

TORNADO FLUSH®

SWIRLS and EJECTS
waste entirely

CLEAN SYNERGY

EWATER+®
For BOWL

Prevents the accumulation of waste on bowl.

Electrolyzed water reduces waste and dirt you can't see.

WASHLET

WASHLET+

TOILETS

LAVATORIES

EWATER+®
WASHES THE WAND AND TOILET BOWL WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic waste has no place to hide.

Without EWATER+

With EWATER+

How EWATER+ Cleans

Before use → **During use** → **After use** → **During standby**

PREMIST, a fine mist of ordinary water, is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

EWATER+ is applied to cleanse the wand and toilet bowl and remove waste

EWATER+ is automatically sprayed 8 hours after the last use
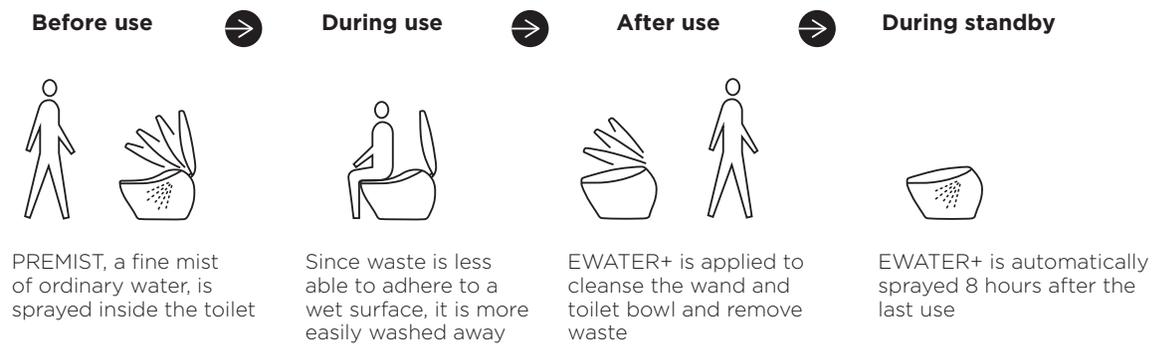

What is EWATER+?

Produced by electrolysis of the chloride ion in tap water. It is completely free of chemicals and cleaning agents. Over time, EWATER+ returns to its original state of ordinary water, making it completely environmentally friendly.

Tap water → Electrolysis → **EWATER+** → Time passes → Returns to ordinary water

Chloride ion

Water containing hypochlorous acid
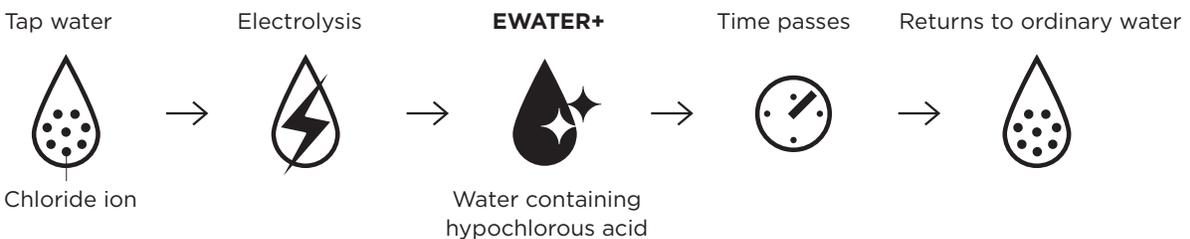

CLEAN SYNERGY

EWATER+®
For WAND

Prevents the accumulation of waste on wand.

The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.
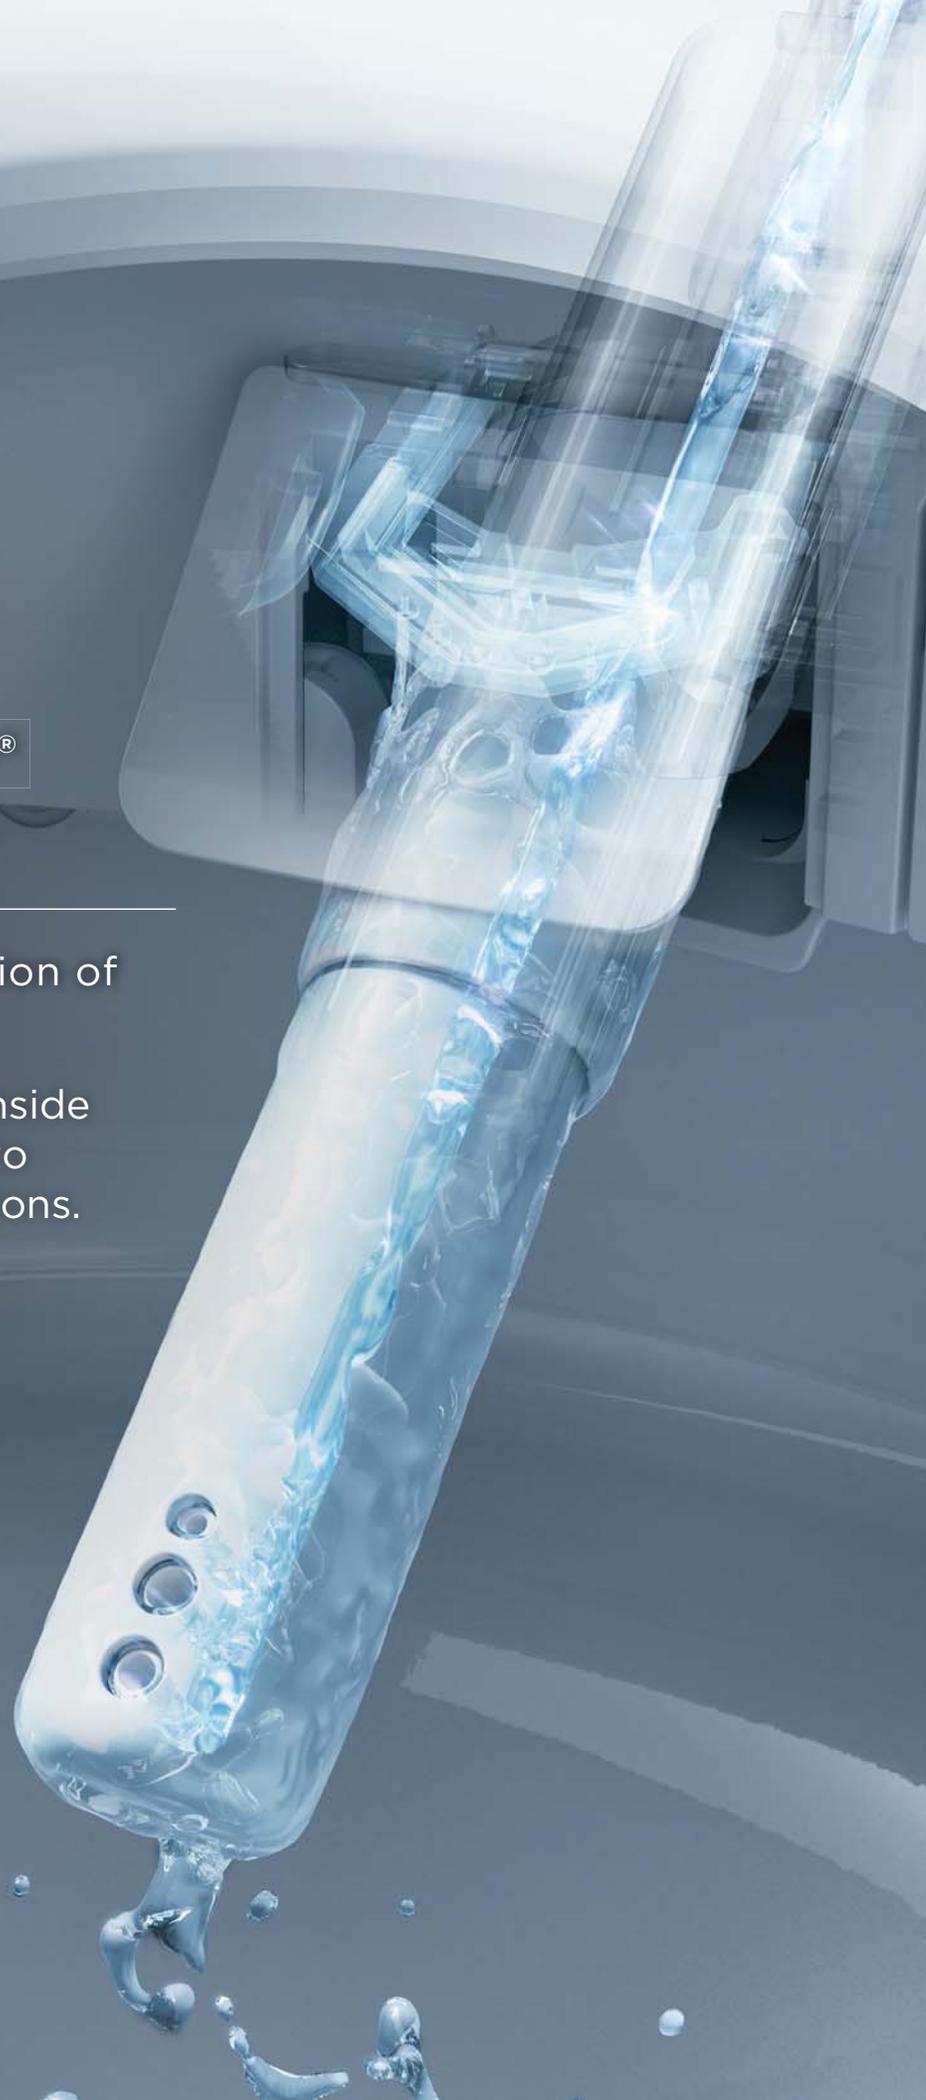

EWATER+®
BEFORE AND AFTER EACH USE, THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically cleans itself to ensure constant hygienic conditions.

Dirt

Without EWATER+

With EWATER+

Self-Cleaning Inside the Mechanism

Before use → **During use** → **After use** → **During standby**

Self-cleans with water

Self-cleans with water

Self-cleanses inside and out with EWATER+

Self-cleanses inside with EWATER+
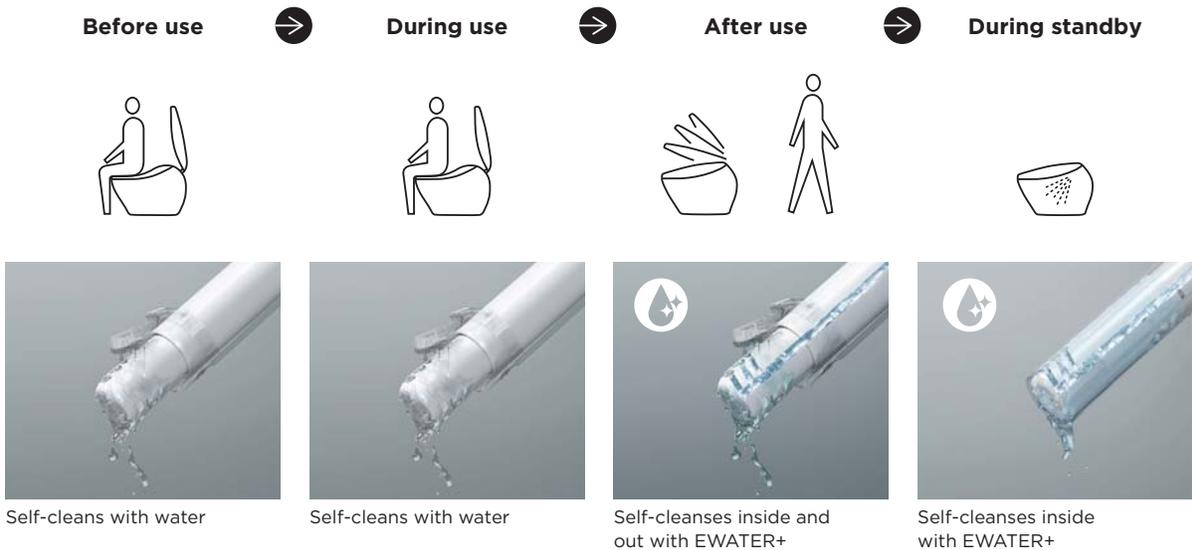

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

The wand attaches to the seat.

CEFIONTECT®

Forces waste to slide down.

Ultra-smooth ceramic leaves nowhere for waste to cling.

PREMIST®

Prevents waste from clinging.

A film of water keeps waste from clinging.

CEFIONTECT®
IS AN ULTRA-SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

Washing water

Washing water

NON CEFIONTECT

CEFIONTECT

Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eyes, but has gaps where waste, mold and bacteria hide. At just one millionth of a millimeter, CEFIONTECTS's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

Glass layers are burned onto conventional glaze, making CEFIONTECT an extremely durable material.

CEFIONTECT layer

Conventional glaze layer

Base layer   300μm
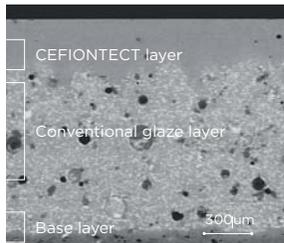

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.
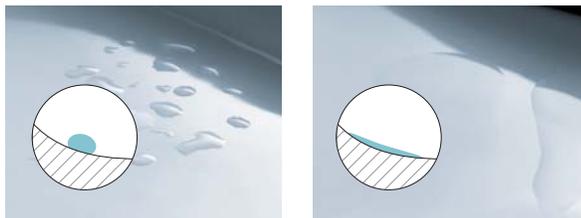

Water hydrophobic

Water hydrophillic

PREMIST®

To ensure waste washes away easily, a film of water keeps waste from clinging to the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

PREMIST

Toilet Bowl Surface

CLEAN SYNERGY

TORNADO
FLUSH®

Swirls and ejects waste entirely.

360˚ cleaning power reaches
every spot using less water.

DYNAMAX TORNADO FLUSH®
USES 100% OF WATER TO CLEAN AND RINSE BOWL.

DYNAMAX combines powerful bowl cleaning and waste evacuation using water that is 100% projected from the rim creating 360° cleaning power. Using only 1.0/0.8 or 1.28/0.8 gallons per flush, coupled with a 25% larger trapway diameter, this high-efficiency system uses 20% less water with improved performance while also creating a quieter flush. With a modern rimless design, it performs more consistently and is easy to clean.

TORNADO FLUSH® NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Areas where waste accumulates most easily

Hairpin curve of water flow

Powerful washing where waste accumulates most easily

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily - and then washes the entire bowl clean. Exquisitely high-quality ceramic makes this innovative design possible.
 RIMLESS

The RIMLESS design not only leaves no place for waste and germs to hide, it also makes for a much easier to clean toilet.

ACTILIGHT®

Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.

Ultraviolet light

Photocatalytic glaze

ACTILIGHT® elevates toilet cleaning to an extraordinary new dimension. With ultraviolet light and a titanium dioxide-fired toilet bowl, this extraordinary technology initiates a photocatalytic process that breaks down even microscopic waste particles.

State-of-the-art materials

Titanium dioxide attracts water to the surface of the toilet bowl, setting the stage for photocatalysis. The toilet bowl's photocatalytic glaze also contains zirconium oxide, which provides its extreme durability.

Waste

Water veil

Special glaze   Ceramic

UV light   Activated oxygen
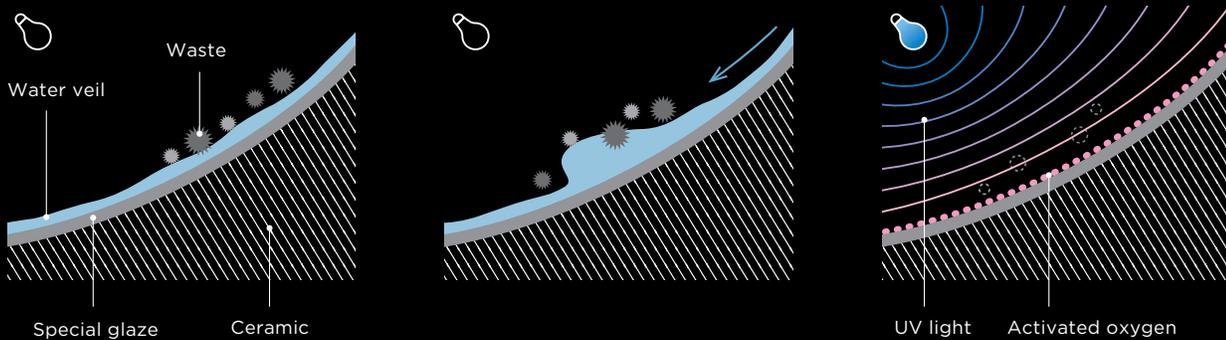

Operates 24 hours a day to maintain hygienic conditions

The photocatalytic process with UV light and titanium dioxide produces activated oxygen from the ambient oxygen and water molecules, which further breaks down organic waste and reduces the food source that microbes feed on.
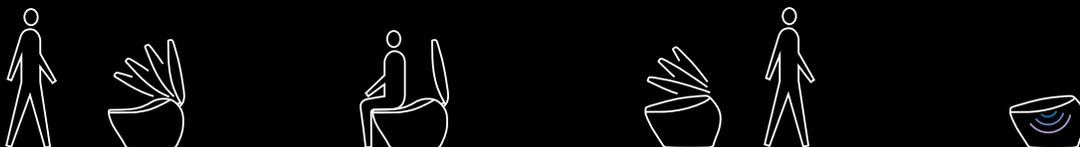

PREMIST, a fine mist of water, is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

Automatic flushing, then spraying of EWATER+

The UV light continues to react with the titanium dioxide, decomposing waste on the toilet bowl

Before use ⟶ During use ⟶ After use ⟶ During standby

ACTILIGHT is available on NEOREST NX2, AC, and 750H models.

FEATURES

SoftClose® LID

The SoftClose lid automatically closes gently to eliminate seat slamming.

HEATED SEAT

The contoured seat has five temperature settings for maximum comfort.

SELF-CLEANING WAND

The self-cleaning function cleans the entire wand with EWATER+ before and after each use.

ACTILIGHT®

Uses a special photocatalytic glaze and an ultraviolet light inside the lid to get rid of both visible and invisible waste. Available on NEOREST models NX2, AC, and 750H.

PREMIST®

Using the incoming water supply, PREMIST wets the toilet bowl surface aiding in the elimination of waste approximately 80% better than a dry bowl.

EWATER+®

After each use, EWATER+ sprays the bowl with electrolyzed water, reducing the need for harsh cleaning chemicals.

DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

AUTOMATIC DEODORIZER

The deodorizer cleans the air around the toilet using powerful filters. Air is drawn in, passing through an ionized carbon filter to eliminate unpleasant odors.

TOTO
WASHLET

AUTOMATION THAT KEEPS YOU CLEAN AND COMFORTABLE

WASHLET® is an electronic bidet seat that cleanses you with warm water and provides an exceptionally clean feeling. With the touch of a button, the self-cleaning wand extends from under the seat to deliver soothing warm water. The wand is fully adjustable, allowing users to set the precise temperature and spray type.

Instead of traditional toilet paper that can sometimes be rough, WASHLET quickly provides comfortable warm water cleansing, heated seat, PREMIST, dryer, and automated technology.

A once mundane trip to the bathroom can become a spa-like experience with WASHLET.

TOTO
WASHLET

CLEANSING FUNCTIONS

CLEANSING FUNCTIONS
WITH THE TOUCH OF A BUTTON, A WAND EXTENDS FROM UNDER THE SEAT FOR SOOTHING WARM-WATER CLEANSING.

How WASHLET® works

AIR-IN WONDER-WAVE® technology is the precise, pleasant, air rich stream that keeps you clean. As water is fired at different speeds, small droplets collide with larger ones, combining and expanding as the droplets fill with more air. The injection of air enlarges water droplets by around 30%.

Expanded water droplet
Slower water droplet
Faster water droplet
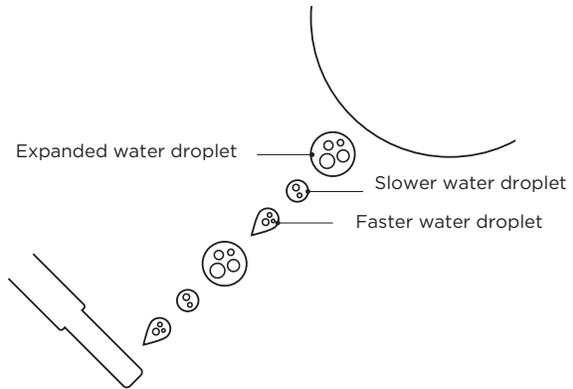

Select the type of cleansing you desire each time.

REAR SPRAY

The rear spray is designed to clean the rear intimate area. It features pleasant, yet strong water pressure to target this specific area.

REAR SOFT SPRAY

It has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

FRONT SPRAY

The front wash consists of large, soft drops for comfortable intimate cleansing – for a clean, fresh feeling.

WIDE FRONT SPRAY

It has a larger radius to cover more area. Lower water pressure makes for a soft, comfortable spray.

Gently opens and closes seat

S350e only

*FRONT WIDE ON/OFF funtion only available on S350e/S300e

WASHLET® TECHNOLOGIES

For greater performance and hygiene in the bathroom.

WASHLET is complete with functions designed for both comfort and hygiene, turning a mundane trip to the bathroom into a hygienic, spa-like experience.
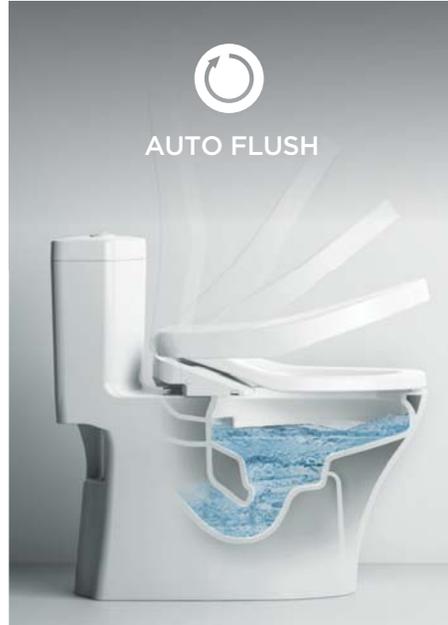

AUTO FLUSH

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use

Auto Flush models only

SELF-CLEANING WAND BY EWATER+®

The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.
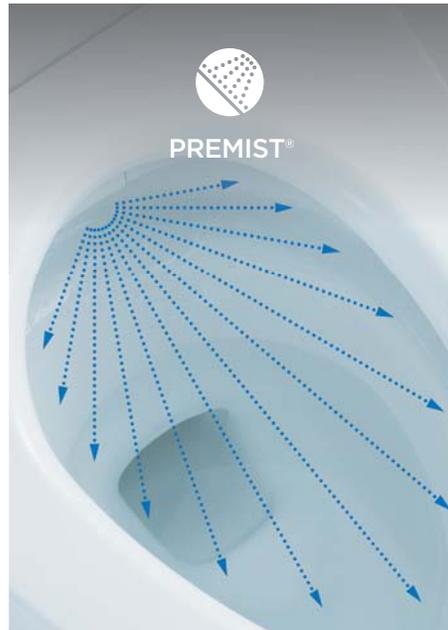

PREMIST®

Using the incoming water supply, PREMIST wets the toilet bowl surface aiding in the elimination of waste approximately 80% better than a dry bowl.

Not available on A100

DEODORIZER

Deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

*Not available on A100

HEATED SEAT

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

AUTO OPEN / CLOSE LID
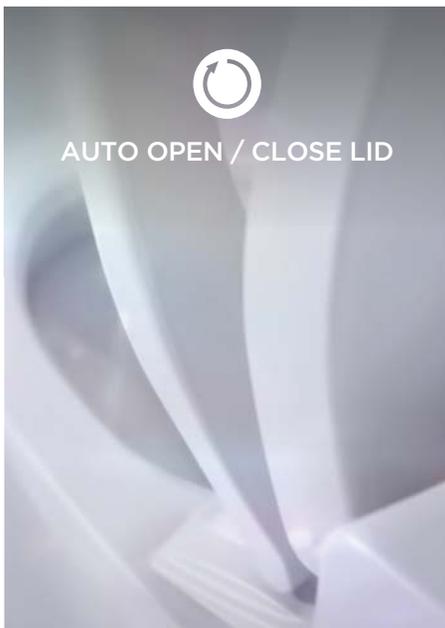

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

*S550e and S350e only

DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

*Not available on A100

For more information on dimensions please refer to product spec sheet.

TOILET TECHNOLOGIES

Our 1G toilets offer substantial water savings without wavering on our renowned performance. Using our powerful — yet surprisingly quiet — gravity-fed, hole-free rim TORNADO FLUSH® technology, 1G fully evacuates the bowl with an ultra-efficient one gallon of water. Combined with the extraordinarily smooth CEFIONTECT® glaze that prevents particulates from adhering to porous, ceramic surfaces every inch of your bowl stays cleaner, longer.
